

**NAME: SHINTHU BARGAVI.V**

**REG. NO: 2019504585**

## **ASSIGNMENT - IV**

- Write code and connections in wokwi for the ultrasonic sensor.
- Whenever the distance is less than 100 cms send an "alert" to the IBM cloud and display in the device recent events.
- Upload document with wokwi share link and images of IBM cloud.

### **SOURCE CODE:**

```

## ALERT CASE: (distance < 100cms)

## IBM CLOUD DISPLAY IN RECENT EVENTS:

## **DISCUSSION OF THE RESULT:**

- The connection has been made for ultrasonic sensor using LED and ESP32 using wowki simulator.
- It is observed that when the distance is greater than 100cms, it doesn't send any alert message.
- But, when the distance is less than 100cms, it sends an alert message to the IBM cloud and the corresponding message can be viewed under IBM cloud device recent events.
